

Stryker Cub FL19H Pediatric Crib Refurbished

Stock Photo – Options May Vary

The Stryker Cub (FL19H) Pediatric Crib provides a safe, comforting environment for the patient, while giving outstanding access for the clinician. The Stryker Cub also has an ultra-modern design with a warm, friendly appearance.

The crib features a retractable backrest, retractable fifth wheel for easy steering, height adjustment, trend/rev trend, O2 tank holder, and a new 4" patient pad.

All four side rails can be lowered to provide unobstructed access to the patient – 360° Access. All activation points to lower the side rails are clearly marked red and require two hand movements to operate for safety. The side rails have a counterbalance system integrated so they are easy to actuate on move. Lastly, swing-open access doors on each corner allow for quick and convenient patient care.

The Stryker Cub Pediatric Crib (FL19H) comes completely refurbished with a comprehensive warranty and a new pad.
