Stock Photo – Options May Vary

- Heavy Duty MRI Stretcher
- All Aluminum, Non-magnetic
- Includes New Mattress
- Retractable Side Rails
- Perfect for Patient Transport
- Includes Patient Restraint Straps
- Completely Refurbished

The Biodex 240 MRI Stretcher is a heavy-duty, all aluminum non-magnetic stretcher and is an ideal unit for MRI patient transport.

Although light in weight for easy, controlled maneuverability, the MRI stretcher accommodates up to a 500 lb patient safely and comfortably.

Standard features include: retractable guard rails, patient restraint straps, and easy to roll 5" locking, swivel casters.

The Biodex 240 MRI stretcher comes completely refurbished with comprehensive warranty and a new pad.
