STILLE – Surgical perfection since 1841

STILLE is one of the oldest medical device companies in the world founded at Karolinska University Hospital in Sweden back in 1841. At STILLE, we develop, produce and sell high-quality surgical instruments and surgical imaging tables to physicians worldwide.

STILLE's offering consists of a strong brand and products renowned for their superior quality. We manage our business in two distinct business areas—Surgical Instruments and Surgical imaging tables.

Surgical instruments

In our Surgical Instruments business area, we have a complete offering of handcrafted, forged instrumentation for all fields of open surgery, with a special emphasis on cardiovascular surgery, and reconstructive and aesthetic plastic surgery. Our instruments feature delicate design, industry-leading durability and a unique feel, which has made STILLE a well-known and highly respected supplier by surgeons throughout the world.

Surgical imaging tables

In our Surgical imaging tables business area, we offer specialty tables for minimally invasive procedures, with pricing, safety and features optimized for both in- and outpatient settings. The STILLE imagiQ2 surgical imaging table has the highest translucency in the world, and is optimized for advanced mobile Hybrid OR settings as well as peripheral and interventional procedures, enhancing crystal imaging while reducing radiation exposure as well as increasing efficiency in the OR.

The STILLE Medstone line of surgical imaging tables range from floating to fully motorized tables for vascular, electrophysiology, gastro (ERCP), pain management and urology to suit your needs, with reliability and optimal performance at an affordable cost at the highest standards of Swedish technology.
