

Steris Amsco 3080RL/SP Surgery Table - Refurbished

Stock Photo – Options May Vary

The Steris/Amsco 3080RL/SP operating table is a great choice for most surgical procedures. The table features all standard functions, including \pm back, \pm leg, \pm height, \pm tilt, \pm flex, and trend/rev trend. The 3080RL/SP also features a radiolucent tabletop, a return-to-level function that is actuated from the wired hand control and is battery-operated with a 400 lbs weight capacity.

The wide range of accessories available is an added benefit. Accessories available include: arm boards, stirrups, anesthesia screens, shoulder positioners, urology extensions, orthopedic leg holders and extensions, and much more.

The Steris/Amsco 3080RL/SP surgery table comes completely refurbished with a comprehensive warranty and includes a new 3-piece pad set.
