

## Steris/Amsco 3085 SP Surgery Table - Refurbished

The Steris/Amsco 3085SP operating table is a great choice for most surgical procedures. The table has all standard functions  $\pm$  back,  $\pm$  leg,  $\pm$  height,  $\pm$  tilt,  $\pm$  flex, trend/rev trend. The 3085SP also features a radiolucent tabletop, return-to-level function which is actuated from the wired hand control, is battery operated, and has a 1000 lbs weight capacity in normal position, and 500 lbs in reverse orientation.

The wide range of accessories available is an added benefit. Accessories available include: arm boards, stirrups, anesthesia screens, shoulder positioners, urology extensions, orthopedic leg holders and extensions, and much more.

The Steris/Amsco 3085SP surgery table comes completely refurbished with a comprehensive warranty and includes a new 3 piece pad set.
