

Stryker Trio Mobile Surgical Platform/Stretcher - Refurbished

Stock Photo – Options May Vary

The Stryker Trio (1033) mobile surgery platform virtually eliminates the need for patient transfers by allowing the patient to stay on the surface for all phases – Pre-Op, Surgery, and Post-Op. The Stryker Trio allows the user to move the unit in the common surgical features, which make it ideal for the ASC and in-office procedure environment. The Trio has manual operations, allowing for simplicity and longevity, as well as a secure braking system, including a steer function for when transporting the patient. mobility, simplicity, and versatility.

Additional features include standard accessory siderails, glide-away patient siderails, IV pole receptacles, 4-wheel central brake system, 5th wheel steering, and low-profile base. Optional accessories include drain pan, siderail pads, foot extender, headpiece extender, Eye surgery backrest, and more.

The Stryker 1033 Trio surgical table/stretcher comes completely refurbished with a comprehensive warranty and a new pad.
