

GP-6200

Gel Body Positioners

The Lateral Shoulder/Arm Positioner with Gel Top is made from viscoelastic gel that offers the highest quality and most comfortable positioners available with superior anti-shear protection. The fluid-resistant gel helps protect against skin tissue breakdown and other types of costly post-operative damage. Kova Gel™ Pads are Latex Free, Fluid Resistant, Reusable and Covered with a Membrane-Like Coating for Easy Clean Up. Perfect for decreasing shear movement and reducing post-operative complications while providing maximum protection and comfort for the patient.

Features:

- Anti-shear protection
- 1 $\frac{3}{8}$ " -6 $\frac{3}{8}$ " x 28"L x 20"W
- Provides support, stability, and elevation
- Latex free and fluid resistant
- MRI Compatible
- Fluid Proof
- Reusable - Easy to Clean
- Disinfectable
- Fully Radiolucent

Materials:

- Kova Gel viscoelastic polyurethane gel
- Vinyl membrane covering
- Medium Firm High-Density Foam
- Conductive 2-way stretch vinyl with nylon straps
