

GP-6600

Gel Body Positioners

This is a cost effective replacement for the Wilson Spinal Frames. It is MRI compatible and 100% radiolucent. This Spinal Frame is reusable, disinfectable and easy to clean. It is zipper free, latex free and comfortable. The Foam Spinal Frame comes with a 4-pc 1" thick Kova Gel™ overlay set. The overlay is attached with hook and loop attachments. Kova Gel™ Pads are Latex Free, Fluid Resistant, Reusable and Covered with a Membrane-Like Coating for Easy Clean Up. Perfect for decreasing shear movement and reducing post-operative complications while providing maximum protection and comfort for the patient.

Features:

- Anti-shear protection
- Zipper free
- Provides support, stability, and elevation
- Latex free and fluid resistant
- MRI Compatible
- Fluid Proof
- Reusable - Easy to Clean
- Disinfectable
- 100% Radiolucent

Materials:

- Kova Gel viscoelastic polyurethane gel
- Vinyl membrane covering
- Medium Firm High-Density Foam
- Conductive vinyl with hook and loop attachments
