The Midmark 419 Power Exam Chair is ideal for Dermatologists, Plastic Surgeons, Oral or Maxillofacial Surgeons and all healthcare professionals requiring maximum access to a patient's head and neck. It features a narrow neck area and a unique, slim backrest, for a large work surface and greater legroom for improved patient access and comfort.

The Midmark 419 Power Exam Chair powers all the way down to 22 3/8" so patients can easily get on and off the chair, without the need to be lifted. Once the patient is on the chair, it powers up to as high as 40 3/8", so physicians won't have to bend or stoop to perform their procedure.

The Midmark 419 comes completely refurbished with a comprehensive warranty and new upholstery.
