

Welch Allyn LXi Vital Signs Monitor – Refurbished

Stock Photo – Options May Vary

The Welch Allyn LXi Spot vital signs monitor can easily be transported from room to room. The Monitor features compact size, lightweight, easy to use carry handle and built in battery, which make it portable and perfect for transport or tight spaces.

Caregivers can quickly and easily take BP, SpO2, and Temp (optional) reading within approximately 15 seconds of connecting the patient.

Included with the unit: New Reusable SpO2 finger sensor, New NIBP Hose and Adult BP Cuff, New Battery, Power Supply, and Users Manual.

The Welch Allyn LXi Spot vital signs monitor comes fully refurbished with a comprehensive warranty.
